PRODUCT BACKGROUND

Located in the Southern Indian Ocean off the coast of Madagascar, Réunion Island has been recognised by the world's perfume houses as the source of the finest Geranium essential oil for more than a century.

Known as Geranium Bourbon—a nod to the island's former name, île Bourbon—this variety of Geranium essential oil has a distinctly complex, fresh, green floral aroma with delicate rosy undertones. Up to 900 pounds of geranium bourbon flowers, leaves, and stems are distilled to produce 1 litre of essential oil. Geranium Bourbon essential oil can be enjoyed as a personal fragrance or topically as part of your skin care routine.

DIRECTIONS

Apply to desired area. In case of sensitivity, dilute 15 drops in 10 ml of Young Living V-6®.
