

Jasmine

Product Size 5 ml

Item No. 33320

Sweet and sensual, Jasmine is hand-picked at dawn and extracted from the Egyptian night-flowering jasmine. Jasmine is often used as the main ingredient in perfume, celebrated for its romantic notes. Add a few drops into your moisturiser or body butter for beautifully soft and supple skin. Or why not create a custom-made scent, blending with Rose, Geranium or Lemon for a delightful infusion.

Benefits and Features

- Has a rich, sultry, floral aroma.
- Helps maintain the appearance of nourished, shiny hair.
- Sets the mood for pampering or romance.
- Enhances the appearance of radiant skin.

Suggested Use

- Add it to your favourite hair products to help nourish hair and leave it feeling silky-smooth.
- Add a few drops to your bath for a calm, romantic evening.
- Roll this delicate oil on your wrists and neckline for the perfect date night fragrance.
- Add Jasmine to your skin care regimen to support the appearance of glowing skin.

Product Background

Jasmine has been nicknamed the queen of the night and moonlight of the grove. It is a genus that includes some 300 species of hardy evergreen shrubs or vines growing to a height of 32 feet. Native to Asia and now common around the world as an ornamental plant, jasmine is a large climbing shrub in the olive family that produces small, fragrant white and pink blossoms. The plants are harvested at night to maximise yield, and Jasmine is actually considered an absolute, not an essential oil.

Jasmine has a rich, sultry aroma that pairs beautifully with citrus and other floral essential oils to set the mood for pampering and romance. Applied topically, it promotes the appearance of glowing skin and hair and leaves a delicately perfumed, sumptuous scent.

Directions

Apply to desired area. In case of sensitivity, dilute 2 drops in 15 ml of Young Living V-6®.

Cautions

Keep out of reach of children. For external use only. Keep away from eyes and mucous membranes. If you are pregnant, nursing, taking medication, or have a medical condition, consult a health care professional prior to use.
