Thieves® Fruit & Veggie Soak

Product Background

According to an American organisation, the Environmental Working Group (an organisation of scientists, researchers, and policymakers), the most contaminated fruits and vegetables are peaches, strawberries, pears, lettuce, apples, cherries, peppers, spinach, nectarines, imported grapes, celery, and potatoes. Thieves® Fruit & Veggie Soak offers a quick and easy solution for effectively cleaning large amounts of produce—whether it's for meal preparation for your family, cooking for a big event, or canning fresh garden vegetables.
