## FREQUENTLY ASKED QUESTIONS

**Q: How much does Pet Care need to be diluted before application?**

A: This product is prediluted specifically for animals. However, additional dilution may be required depending on the size and sensitivity of the animal. This product is specially formulated for all animals, and each individual animal will have different levels of sensitivity. Start by

diluting heavily and use in moderation. We also suggest testing the blend on a small area before wide-spread application. Every animal is different, so carefully observe how each animal responds to the oils.
