

PRODUCT SUMMARY

If you love your pet, treat them to the best with this lovingly crafted animal essential oil blend. Enriched with soothing Lavender, Hyssop and grounding Myrrh to bring nature indoors. Infused with Frankincense, often referred to as "liquid gold," you'll notice the sweet and spicy notes as you apply this blend topically to your furry friend.

Ready to spoil your furry friend? Simply dilute the animal essential oil blend with a carrier oil as noted on the bottle, rubbing between your palms until your hands are no longer shiny. Gently massage your pet's back, belly and behind ears, making sure to avoid their eyes.

Made lovingly without synthetic perfumes, dyes, artificial colours or fragrances.

A portion of all proceeds from Animal Scents products will help support Vital Ground, a non-profit organisation dedicated to protecting the habitat of grizzly bears and other wide-roaming wildlife.

KEY INGREDIENTS

Geranium, Lavender, Hyssop and Frankincense essential oils

EXPERIENCE

For a quick pick-me-up indulgent treat, apply a few drops onto your palms until your hands are no longer shiny. Gently massage onto your pet's back, belly or behind ears, enjoying the earthy refreshing scent.

PRODUCT BACKGROUND

As your pet returns from the outside, treat them to some tender loving care. Enjoy gentle notes of sweet Lavender and rich Frankincense and Myrrh. Steam distilled, Myrrh essential oil has been used since ancient Egyptian times and is known for its grounding, warm aroma. You may like to apply topically or add a few drops into a bath, patting down dry with a towel as normal, for a fresh and decadent touch.

FREQUENTLY ASKED QUESTIONS

Q: How much does Pet Renew need to be diluted before application?

A: Pet Renew is prediluted specifically for animals. However, additional dilution may be required depending on the size and sensitivity of the animal. This product is specially formulated for all animals, and each individual animal will have different levels of sensitivity. Start by

diluting heavily and use in moderation. We also suggest testing the blend on a small area before wide-spread application. Every animal is different, so carefully observe how each animal responds to the oils.
