## > KEY INGREDIENTS

Pure, potent CBD and Young Living Cinnamon Bark essential oil

## > EXPERIENCE

Cinnamon CBD Oil has a warm, fragrant scent that evokes a sense of cosiness. Its comforting aroma will make anywhere you go feel like home.

## > PRODUCT BACKGROUND

Nature's Ultra CBD products are crafted using a blend of high-quality CBD isolate and Young Living essential oils. These world-class ingredients combine to form our very own Smart Spectrum CBD.

This oil uses Cinnamon Bark essential oil. Cinnamon Bark comes from a tropical evergreen tree that is native to Sri Lanka. To obtain the essential oil, the bark of the tree undergoes a steam distillation process. This warmly scented, versatile oil was found in anointing oil from thousands of years ago. Egyptians employed it as a perfuming agent as well. By combining it with our CBD isolate, we've created a truly unique CBD oil.
