Directions

- Remove the outer ceramic cover by holding the base and gently lifting the cover. Handle the cover with care; if dropped, it will shatter.
- Remove the inner lid of the water reservoir.
- Add water to the reservoir until it reaches the water line.
- Add 8–10 drops of essential oil to the water.
- Place the lid back on the reservoir and then replace the ceramic cover on the diffuser.
- Connect the diffuser to the USB-C power supply.
- Press the on/off button (middle) to start the diffuser.
- Adjust the settings using the high or low output button (left of the on/off button) and the light button (right of the on/off button).
