

# Cedarwood

Product Size: 15 ml

Item No 31998

Deliciously smoky in its aroma, Cedarwood essential oil is extensively used in perfumery. Created via steam distilling the bark of cedar trees, this soothing and purifying oil can be both added to lotions to boost dry and lack lustre-looking skin and dropped into a base shampoo for healthy-looking and beautiful-smelling hair. Traditionally used by Native Americans to enhance their spiritual connections, Cedarwood oil can also be applied to your pulse points during morning meditation sessions, for an aromatic experience that'll both ground and soothe your senses.

Young Living's Cedarwood essential oil is created in Morocco and promises a woody scent with hints of citrus. It's an especially important oil in the Young Living family as it features as a key ingredient in a variety of beloved blends, including decadent, rich Brain Power, and seductive, masculine Shutran®.

## Benefits and Features
