## Product Background

Make the brisk winter air come alive with the scent of Winter Nights essential oil blend! Young Living's exclusive signature scent Winter Nights features Northern Lights Black Spruce essential oil, produced exclusively at the Northern Lights Farm and Distillery in British Columbia, Canada. Established in 2014, this farm remains a pristine landscape to grow and harvest the botanical for one of Young Living's most beloved essential oils. Orange, which is produced at the Amanzi Amahle Cooperative Farm in South Africa, and Peppermint, produced at the Labbeemint Partner Distillery in Washington, join to add some brightness and effervescence to the Winter Nights blend and to elevate the woody notes of Black Spruce and Cedarwood. Breathe in the crisp and cosy aroma of Winter Nights essential oil blend.
