CitraGuard Deodorant

Product Background

CitraGuard is deodorant done right! It's a great alternative to conventional deodorants that use harsh ingredients to overpower the body's chemistry rather than work with it. This clinically tested deodorant helps combat odours and provide long-lasting freshness. Odour-causing bacteria in the underarm area enzymatically convert fatty acids in sweat to thioalcohols, a kind or organic compound responsible for armpit odour. CitraGuard Deodorant's exclusive combination of ingredients fights odours without disturbing normal perspiration.

Directions

Apply 3-4 light strokes to underarms daily. If necessary, turn dial to raise product.

Storage

Do not expose to excessive heat or direct sunlight.

Cautions

Keep out of reach of children. May cause skin sensitivity. Discontinue use if irritation occurs. For external use only.
