Young Living Purification®

Product Background

Created by Young Living Founder D. Gary Young, this blend was crafted to help with unwanted odours. Young Living Purification® combines the fresh, slightly citrusy notes of Citronella and Lemongrass with the soft, floral scent of Lavandin, herbaceous aroma of Rosemary, and the camphor-like scents of Myrtle and Tea Tree oils to uplift and invigorate the ambiance of any environment. The plant sources for these oils come from many exotic and beautiful locations: Lemongrass comes from Young Living's Finca Botanica Farm and Distillery in Ecuador; Tea Tree is extracted from the steam-distilled leaves of the *Melaleuca alternifolia* tree, native to Australia; Rosemary is native to the Mediterranean regions and extracted from a perennial shrub; and Citronella originated in Sri Lanka and is extracted from the leafy parts of the citronella plant, also known as *Cymbopogon nardus*. Young Living Purification® utilises these natural resources to brighten and freshen up any space.
