Key Ingredients

- **Harmony** – Harmony essential oil brings a sense of balance thanks to its combination of Lavender and Ylang Ylang essential oils. Rub Harmony on the chakra points to invite a positive atmosphere.
- **Forgiveness** – Young Living’s Forgiveness essential oil blend is an uplifting combination that includes Melissa, Geranium, and Frankincense. Forgiveness allows the release of negative thoughts and promotes an openness to move forward. Apply Forgiveness to the navel and let go of limiting beliefs.
- **Inner Child** – Our Inner Child blend invites you to reconnect with your inner self. The combination of Orange, Tangerine, Jasmine, Lemongrass, and Neroli provides a sweet, childlike fragrance. Rub 1–2 drops of Inner Child just under your nose to open the pathway to connecting with your inner self.
- **Present Time** – Present Time promotes feelings of living in the moment. The blend of Neroli, Black Spruce, and other essential oils allow you to see the future with an open mind for new possibilities. Apply Present Time to the wrists and behind the ears.
- **Release** – Release facilitates a sense of equilibrium, harmony, and balance using Ylang Ylang, Geranium, Lavender, and other essential oils.
- **Valor** – Valor promotes a sense of completeness and balance and provides sweet and spicy notes thanks to its inclusion of Black Spruce and Blue Tansy.
