WHY BLOOM WAS CREATED

by YOUNG LIVING

The BLOOM by Young Living Brightening Skin Care System was developed to address common skin concerns such as dark spots, dullness/lack of radiance, dehydration and uneven skin tone. These are caused by multiple factors including genetics, exposure to UV rays, heat, humidity, air pollution, air conditioning etc.

The BLOOM by Young Living Brightening Skin Care System helps intensify hydration, brighten the skin's appearance, add natural radiance, help improve the appearance of an even skin tone and minimise the appearance of future damage.

The BLOOM by Young Living Brightening Skin Care System is testament to our unwavering commitment to clean beauty! It is infused with the most advanced naturally derived gentle ingredients available and formulated without gluten, parabens, phthalates, synthetic fragrance, sulfates, petroleum, mineral oil, or any of the thousands of potentially problematic ingredients we refuse to use.

All BLOOM by Young Living Brightening Skin Care products are also hypoallergenic, non-comedogenic and cruelty-free.

HARNESSING THE POWER OF THE SHEERLUMÉ BRIGHTENING COMPLEX
