

BLUE TANSY ESSENTIAL OIL

USE

💧 Topical - 🌿 Aromatic - 🍯 Dilution

SCIENTIFIC NAME

Tanacetum annuum

PRODUCT SUMMARY

Though Blue Tansy essential oil, *Tanacetum annuum*, is harvested from tiny yellow flowers in the chamomile family, the naturally occurring constituent chamazulene turns the powerfully pure essential oil a beautifully rich blue colour during the steam distillation process. Native to Morocco, Blue Tansy is a rare botanical that is most commonly known for its use in high-end, luxury beauty products.

For years Young Living members have enjoyed the benefits of Blue Tansy essential oil in some of our most popular blends, including Valor[®], Peace & Calming[®] and JuvaFlex[™]. Now Blue Tansy is available as a single oil for you to diffuse, apply topically and share!

BENEFITS & SUGGESTED USE

- Has a sweet, floral fragrance that creates an uplifting environment when diffused.
- Possesses skin-cleansing properties that help improve the appearance of the skin.
- Moisturises, beautifies and smoothes the skin when added to a moisturiser.
- Soothes fatigued muscles when combined with Cool Azul[™] essential oil blend.
- Add Blue Tansy to Epsom salts and V-6[™] Enhanced Vegetable Oil Complex for a relaxing bath.

DIRECTIONS

Topical: After dilution, apply 2-4 drops to desired area. Use as needed.

Please Note: Due to Blue Tansy's blue colour, it has the potential to stain clothing or skin. To avoid this, dilute with a moisturiser or carrier oil before applying topically.

Aromatic: Diffuse up to 1 hour 3 times daily.

CAUTION

Keep out of reach of children. For external use only. Keep away from eyes and mucous membranes. If you are nursing, taking medication, or have a medical condition, consult a health professional prior to use.

INGREDIENTS

Tanacetum annuum† (Blue tansy) flower oil
†100% pure, therapeutic-grade essential oil
