In what year did you join Young Living?

The beginning of 2018.

How did you find out about Young Living & who introduced you to Young Living?

I came across another new mama sharing about Young Living on Instagram. I was intrigued by all the different ways you could use them. After a lot of research and discovering Young Living was the best of the best when it comes to essential oils, I got my Starter Bundle and never looked back. It changed our lives.

What was your occupation before joining Young Living?

I worked in retail for 7 years and then was a barista whilst studying journalism at university.

What makes Young Living unique?

Their Seed to Seal quality, their ethics regarding being stewards of the earth and the community that surrounds this incredible company. So honoured to work alongside a company that cares about me and my family's wellness and the health of our environment as much as I do.

How has your life changed since you joined Young Living?

It completely changed the trajectory of my family's life. We work hard at running our own business - whilst travelling in a bus around Australia with our kids! It has transformed our wellness and has brought so many beautiful like-minded souls into our lives.

What is your favourite Young Living product? Why? Explain what the benefits are to you.

My whole family loves NingXia Red. Sometimes travelling on the road, we can't always get all the organic produce we'd like, so it's amazing to have NingXia as a natural antioxidant drink for us all. We all love the taste and the energy boost it gives me as a mama is amazing too.

MEMBER SUCCESS STORY

DIAMOND

Were you skeptical about essential oils and the Young Living opportunity before?

I was lucky in that I had no pre-conceptions about network marketing beforehand and my experiences of the business side of Young Living has been full of positivity. I've worked hard because I saw the vision of this opportunity for my family and it has paid off a hundred fold. I was a bit skeptical about the ability of essential oils to support your emotions but now I'm a convert. Ha! And it's one of the main ways I use them.

What changed your mind about Young Living?

Experiencing the oils and products for myself and experiencing the incredible vitality they gave me, as well as watching so many of those I've shared with, have their lives transformed too.

Why would you recommend others join Young Living?

Over and over and over again. The investment in your wellness and yourself is the best investment you'll ever make. I am so thankful to have found my calling alongside a company that completely aligns with my values and beliefs.

What do you think is the most incorrect myth you have heard about Young Living?

That it's a pyramid scheme and a cult! My experience has been so far removed from any of the negativity I've come across about it. I've never worked with a company that values its people and the quality of its products as much as Young Living. It's a testament that after 26 years their essential oils, products and business opportunity are standing the test of time and are experiencing more success than ever.

What would your response be to correct this myth if you heard it yourself?

Pyramid schemes are illegal. This is network marketing done with heart and integrity and in no other workplace have I been so in control of my future. I think the word 'cult' gets thrown around so superfluously. We are a community whose wellness and daily lives have been transformed by these incredible oils and products and we simply want to share this experience with people so they can feel the same.
