## MEMBER SUCCESS STORY

### DIAMOND

#### Were you skeptical about essential oils and the Young Living opportunity before?

I had used some essential oils as a child so I assumed they would be helpful but didn't know they would be this transformative for my lifestyle. In terms of the business, I wasn't interested in being a salesperson at all. But this is so different. The oils sell themselves, and I can share it in a way that is authentic to me.

#### What changed your mind about Young Living?

A health guru who we look up to immensely mentioned that he used Young Living (he is a huge organics advocate) and after 6 months of researching, his comment settled it for us. Now after seeing the farms we are continually blown away at the process Young Living go through to give us essential oils that are truly miles above the rest.

#### Why would you recommend others join Young Living?

Because it has the best essential oils on the market! It is a family who truly want the best for people, and the heart of the company comes through everything. Plus, the products alone have transformed so many people's lives.

#### What do you think is the most incorrect myth you have heard about Young Living?

That you have to get in early to be successful and that people are forced into buying products that don't work.

#### What would your response be to correct this myth if you heard it yourself?

I jumped in when the company was 20 years old in Australia. You get out what you put in. Anyone in my team can outrank me, so it doesn't matter when you get into it, you can still be successful. And in terms of being forced into buying... that's another reason I went with this company because they don't ever force it on anyone. It is sharing a different lifestyle and God's plant juice truly does work wonders. I feel beyond blessed that I am able to use oils for my family because that is the most important thing to me.
