# Alice Gair

**What was your occupation before you joined Young Living?**

Primary School Teacher.

**What is your favourite Young Living product and why?**

The hardest question people ask me, purely because there are so many Young Living products I love. NingXia Red is something I can't go a day without and it's always finding its way into my monthly order. The taste is the best part, but the energy boost it gives me is amazing being a non-coffee drinker.

**Why would you recommend for others to join Young Living?**

Because Young Living have made it easy. Putting my wellbeing first is a priority and with their complete product range they have given me and other individuals the chance to create a better lifestyle. Young Living's Seed to Seal promise is like no other and I am so grateful to be a part of a community of such like-minded people.

**What, in your opinion, makes Young Living unique?**

Everything! Young Living cares for and appreciates every single one of their members. There's an incredible community and culture that they are opening the door for anyone who is willing. And of course, their unique high-quality products that they offer.

**How has your life changed since you joined Young Living?**

In every way possible! This opportunity has been an absolute blessing in so many ways. It shifted my whole perspective of wellbeing for myself and others. It has provided me with growth and a wealth of knowledge in so many different areas. Most importantly, after working so hard, it gives me so much joy and happiness in knowing that myself and my partner's dreams are becoming a reality.
