What was your occupation before you joined Young Living?

Project Manager

What is your favourite Young Living product and why?

NingXia Red – I don't know I managed without it for the past 20 years!

Why would you recommend for others to join Young Living?

When you join YL you find something purposeful, something genuine and something way beyond the standards ethically and morally of what you are used too. So many people are working hard at their jobs and seeing no reward for that, other than being paid. With Young Living your hard work is rewarded in so many ways.

What, in your opinion, makes Young Living unique?

The culture, the standards, the people it attracts, and the love that you feel when you join. There are no empty promises with YL – if you use the products and adopt a healthy lifestyle you can live above the wellness line.

How has your life changed since you joined Young Living?

I now have a flexible work schedule so I am home with my 3 young children and not missing out on everything I used to do.
