## **Ann & Roy Brown**

### **What was your occupation before you joined Young Living?**

Roy and I had been self employed Remedial Therapists for almost 50 years combined. Joining Young Living was an extension of the service we could offer our clients. We also travelled Australia teaching Bowen Dynamics.

### **What is your favourite Young Living product and why?**

Our favourite oils are Frankincense and Peppermint as they offer so many options from improving our wellbeing to clarity of mind. Thieves® Foaming Hand Soap is also a favourite as it is so versatile.

### **Why would you recommend for others to join Young Living?**

From a health and financial perspective, using the extensive range of Young Living products reduces the amount of harmful chemicals we come into contact with every day and is a more cost effective option. Maintaining a state of wellness with the benefits provided by the frequencies of the essential oils is an added benefit.

### **What, in your opinion, makes Young Living unique?**

Obviously the Seed to Seal® promise. This underlies the fact that the company was founded on integrity and is completely transparent in all aspects of the process which sets us apart from other companies.

### **How has your life changed since you joined Young Living?**

Our overall wellbeing has improved, and people comment on how good we look. It has given us the opportunity to travel the world with wonderful new friends whilst offering us a sense of security.
