

MEMBER SUCCESS STORY

GOLD

In the spotlight with:

Donne Cuzzola

What was your occupation before you joined Young Living?

I worked in the beauty and cosmetic industry for the past 25 years. Before Young Living, I thought I was using the best (non-toxic beauty products). Little did I know at least 200 toxic chemicals were going on my body every day.

What is your favourite Young Living product and why?

If I had to choose just one, it's Rose Oil. Rose, I have used since day one. It has brought me the JOY of having a freshly cut bunch of roses everyday in my life. I believe that everyone that comes into this company, starts as a rose bud and through this journey, blossoms into the most exquisite rose!

Why would you recommend for others to join Young Living?

It's for anyone looking for freedom to build their best life filled with Abundance, Purpose and Wellness. Those seeking to be part of a global community around the world, with like-minded families. To reduce the toxic chemical load from day-to-day living.

What, in your opinion, makes Young Living unique?

The purity, authenticity, transparency and 25 Years of Experience that cannot be bought. The vision to bring essential oils into the modern world and homes. The farms, knowing where our oils come from, who farms them and how. Young Living's mission to environmentally sustain the Earth is like no other company.

How has your life changed since you joined Young Living?

Self development - I have become a better wife, mum and daughter. Everyday is a 'working progress' on this journey. Remember, you only grow when you're outside YOUR comfort zone. If you can't work on yourself you can't help others.
