

MEMBER SUCCESS STORY

GOLD

In the spotlight with:

Fiona Mofflin

What was your occupation before you joined Young Living?

I worked at Engineers Australia as the Deputy Director and part of this role was to manage major events which I absolutely loved. So now that I have my own YL business, I get to run my own events.

What is your favourite Young Living product and why?

This is a difficult one. It would have to be the Thieves Household Cleaner as it is so versatile. It has transformed our household, as I am a clean freak so discarding all those nasty toxic chemicals out of our house is simply the best.

Why would you recommend for others to join Young Living?

You get to take control over your family's health and wellness - that includes your fur babies. By having these truly amazing products you can change your life with wellness, purpose and abundance.

What, in your opinion, makes Young Living unique?

Their Seed to Seal commitment makes them stand out from the rest. The amount of testing they perform on every batch of oil that is received before it is delivered to your door is incredible. They will not sell an oil if it does not meet their rigorous standards, this could sometimes mean out of stock items and what other company would do that...none!

How has your life changed since you joined Young Living?

We as a family live a much healthier life in so many ways. It made me stop to look at what we were putting in and on our bodies. The greatest gift Young Living has given me, is allowing me to help others improve their quality of life. It may be one drop of Aroma Life over the heart of a grieving Aunty that can make all the difference.
