

In the spotlight with:

Jessie Potterton

What was your occupation before you joined Young Living?

Hairdresser.

What is your favourite Young Living product and why?

Stress Away. When I joined Young Living, I was a mum of 2 young children and had learnt the dangers of candle and perfume exposure – Stress Away became my best friend and I haven't looked back since.

Why would you recommend for others to join Young Living?

Because Young Living has the ability to give all areas in your life a complete upgrade. It can support your wellbeing and your home environment becoming a one stop shop low tox sanctuary. You also get this incredible community that feels like family helping you along the way.

What, in your opinion, makes Young Living unique?

The heart of the company being Gary Young and the values and beliefs that have been instilled in the products – this truly changes people's lives. I don't know many, if any, companies that do that.

Also, the business model that allows us, the brand partners, to be the marketer, and share our stories. I think that is truly special and you can't just buy it anywhere.

How has your life changed since you joined Young Living?

I can't quite put into words the gratitude I feel for this company and the gift it has given me. Being able to work from home with my 3 children, attend all school events, whilst also fulfilling my heart with passion, sharing this low tox message and helping people generate income and live better.
