

In the spotlight with:

Rebecca Wellington

What was your occupation before you joined Young Living?

I was a High School History and English teacher.

What is your favourite Young Living product and why?

This is a hard one because I catch myself calling all of them “my favourite” at one time or another! I’d have to say DiGize has been the longest standing highlight. It was the oil I was most excited to get in my very first starter kit and I use it almost every day!

Why would you recommend for others to join Young Living?

I signed up for the incredible product range. Joining Young Living made it so easy to switch out all the nasty products in my home while Essential Rewards gave so many added benefits that I couldn’t look at conventional supermarket promotions seriously again. Beyond that, being in a community of like-minded people trying to do the best for their health and the planet is the most incredible space to be in!

What, in your opinion, makes Young Living unique?

Being a Young Living member is unique for the sense of support and community that you get from the company itself and the team you sign up with. You really do feel that the company cares about your wellbeing with the many events run, member care and constant development of new products. Yet this passion is reflected in all the teams that make up our Young Living distributors, so our members get a really personal experience with the people they sign up with, too! It’s amazing to see how the many faces of support work together and make our people feel really looked after.

How has your life changed since you joined Young Living?

My life has completely changed. Having religiously used the products for the last three years I really feel like the healthiest I’ve ever been. Diving into the business side of things has not only meant that I’m ecstatic to get up each day to do my work but it has also drastically changed my mindset. I have such an amazing life and an incredible future coming, neither of which would have been possible without Young Living or my team.
