

MEMBER SUCCESS STORY

GOLD

In the spotlight with:

Susan Marshall

What was your occupation before you joined Young Living?

Queensland Police Officer

What is your favourite Young Living product and why?

Valor essential oil blend – its aroma ALWAYS sends me into a deep state of bliss.

Why would you recommend for others to join Young Living?

Before joining Young Living, I never thought about what products I was using on and in my body and the effects it might have. After discovering Young Living, I could clearly see how a low tox life was of benefit to me, my pets, my daughter and the environment. Young Living is the most ethical company I have ever come across. I have never seen them sacrifice the quality of any of their products and so I have complete and utter trust that I am purchasing the best products on the planet. Their range is also so extensive – they truly are a one-stop-shop.

What, in your opinion, makes Young Living unique?

The fact that Young Living owns most of their own farms and distilleries. They are such a transparent company, allowing you to view every step of the process, from Seed to Seal!

How has your life changed since you joined Young Living?

Firstly, my over wellbeing has improved immensely. Secondly, I have made some long-lasting friendships with like-minded people. But most of all, when I started Young Living as a business, it took me on a personal journey. It wasn't always easy, especially when my insecurities and negative self-beliefs came to the surface. However, I was determined to work through them and as a result, I am now an even better version of myself. I have Young Living to thank for that.
