

In the spotlight with:

Alinta Parkes

In what year did you join Young Living?

August 2016.

How did you find out about Young Living & who introduced you to Young Living?

We were struggling to get our youngest to wind down at night. A friend reached out and offered me her diffuser and some oils to try. After trying the products three nights in a row, I called my friend up and said, 'get me all the oils!'

What was your occupation before Young Living?

I was a Wedding Photographer when I started sharing Young Living, and prior to that a Social Worker.

What makes Young Living unique?

The company has heart. This heart transpires through the whole community. The focus is on complete wellbeing, and this shows in the education given.

How has your life changed since you joined Young Living?

My family are so much healthier. We have been able to do things we could have only dreamed of. Plus, creating my own schedule to earn an additional income while being able to still be present as a mum has meant everything to me.

What is your favourite Young Living product? Why? Explain what the benefits are to you.

I can't just do one product! So, I'll say the whole Thieves line. This streamlined being able to buy safer, effective cleaning products for our home.

Were you skeptical about essential oils and the Young Living opportunity before?

No, I wasn't averse to essential oils. My mum used them when I was growing up, however I didn't feel they were that effective - they weren't Young Living! I am open to trying most things and was desperate for relaxation! Thankfully, I had no reservations about the Young Living opportunity. As soon as I felt how incredible the products were and then saw the opportunity provided from sharing, I jumped right in.

What changed your mind about Young Living?

Young Living is different. This is not your traditional Network Marketing company. It's sharing from the heart and I've never felt like its salesy.

Why would you recommend others join Young Living?

I tell everyone about how it's changed my life, because I want this for them. It will truly change your life in every way. There is no one who's life couldn't be enriched if they embraced the Young Living lifestyle. The flexibility, passion, love, care, dreaming big and community are incredible. The best part is the support you have alongside you while you do this.

What do you think is the most incorrect myth you heard about Young Living?

That it's a pyramid scheme or a scam.

What would your response be to correct this myth if you heard it yourself?

Pyramid schemes are illegal. Don't judge something until you have actually tried it for yourself. Like everything, you get out of it what you are willing to put in. Don't focus your energy on negativity.
