In what year did you join Young Living?

December 2019.

How did you find out about Young Living & who introduced you to Young Living?

So many people I followed on social media shared the products and the low tox lifestyle and I knew I had to be a part of it.

What was your occupation before Young Living?

I was a nurse and then I was an Australian Sign Language Interpreter for 3 years.

What makes Young Living unique?

The quality of products, support, encouragement, and energy are second to none. When you join Young Living you are welcomed into a village that wants to support your family into living a healthier lifestyle.

How has your life changed since you joined Young Living?

Looking back at my life before Young Living seems like a distant memory. I am the happiest, healthiest, most fulfilled and content that I have ever been. I have made life-long friends, built a strong community with like-minded people, supported my family's wellness naturally and found a true calling.

What is your favourite Young Living product? Why? Explain what the benefits are to you.

Thieves Household Cleaner. As a busy mum-of-three I find myself always cleaning something. Knowing I am not spraying harsh or toxic chemicals near my children has given me the biggest peace of mind. My house is sparkly and clean, all powered by plants.

Were you skeptical about essential oils and the Young Living opportunity before?

I was fairly sceptical. I hadn't had any personal experiences with essential oils and had no real knowledge or education about how they could be used.. As for the business opportunity, I had no negative notions about network marketing. I loved the idea of an "even playing field" and unlimited potential.

MEMBER SUCCESS STORY

PLATINUM

What changed your mind about Young Living?

The community, education and support. Being supported all the way through with starting my low tox journey, incorporating essential oils into my life and being mentored in the business. It sounded safe and I trusted my enroller Christina to guide me through it.

Why would you recommend others join Young Living?

The true beauty about the business is that you get to build it and work it around your life, on your own terms. You can connect with people and share your story in your authentic way.

What do you think is the most incorrect myth you heard about Young Living?

You need to have a huge network or social media following to be successful.

What would your response be to correct this myth if you heard it yourself?

It's completely false. When I joined with Young Living I didn't have a big friendship circle. I had a small, private instagram with some friends following when I started. I continued to build relationships, make friends and share my passion for Young Living products and my network kept growing. Your network is infinite and you will always be making new friends.
