In the spotlight with:

Ian Clayton

In what year did you join Young Living?

I joined Young Living in 2011.

How did you find out about Young Living & who introduced you to Young Living?

Young Living Platinum member Joanne McFatter, and US Crown Diamond member Shanelle, introduced me to Young Living Essential Oils. I knew Shanelle through the ministry for ages. Jo had some essential oils and she did a Young Living conference here in New Zealand.

When Jo showed me the essential oils, they fit right into what I researched about frequency and vibrations. I particularly enjoyed Lemongrass, Helichrysum and Marjoram essential oils. I also bought some Frankincense and Inner Defense™. Thus, my journey with Young Living had begun.

What was your occupation before Young Living?

Young Living is not my only occupation. I manage four different businesses. When I was 27, I sat with an 80-year-old senator who gave me a book about finances. I was managing a big swimming pool complex. Initially, I worked there and was employed by the people who owned it. Later, I ended up buying the business. This is when my hip problems started. At the same time, I ran a pool maintenance business and started Young Living. I also own a publishing company, which I run out of the UK. In addition, I operate an online school with 750 students, which teaches 4 times a week about the spirit kingdom. On top of all that, I also have the product sales from everything I do.

What makes Young Living unique?

The way D. Gary Young, Young Living's founder, has farms all over the world is what makes Young Living very unique. Obtaining the supply from the source of origin is pretty amazing.

How has your life changed since you joined Young Living?

Since joining, I drink a lot of NingXia Red®, Young Living's nutritious wolfberry drink! It keeps me feeling energised and healthy, particularly when I am travelling a lot. I have been married for 38 years and travel around 1 million air miles per year. I often speak for 8 hours a day, 3 days in a row, and I rely on Young Living to keep me going. I have a deep spiritual connection with their essential oils and take them purposefully.

MEMBER SUCCESS STORY

PLATINUM

What is your favourite Young Living product? Why? Explain what the benefits are to you.

My favourite Young Living products are NingXia Red® and Frankincense essential oil. The vibrational frequency Young Living's Frankincense is just so high and I love the purity.

Were you skeptical about essential oils and the Young Living opportunity before?

At first, I was sceptical about the multilevel marketing part of Young Living because of the reputation that other companies seem to have created in the past. After using Young Living Essential Oils however, I was so positive about the essential oils, and it really didn't matter to me.

What changed your mind about Young Living?

What changed my mind is the frequency of the essential oils and how well the essential oils actually worked.

Why would you recommend others join Young Living?

I would recommend for others to trial Young Living for their overall general wellbeing - not just recreationally. Using the essential oils can have major wellbeing benefits when used with direction.

What do you think is the most incorrect myth you heard about Young Living?

True to my heart, I can say that I have never heard an incorrect myth about Young Living. Before I joined Young Living, I was already interested in sound and electrical frequency and the essential oils just fit right into that.
