# Simone Wilken

**In what year did you join Young Living?**  
2019.

**How did you find out about Young Living & who introduced you to Young Living?**  
Through my mum initially and then joined Young Living with my sister.

**What was your occupation before Young Living?**  
Stay at home mum and working casually in hospitality and administration.

**What makes Young Living unique?**  
I think their attention to detail when it comes to standards and quality, their care for their people and the planet and lastly the community within Young Living are what really sets it apart.

**How has your life changed since you joined Young Living?**  
My home is a happy healthier place, and I am now able to fit my work schedule around my family and not the other way around.

**What is your favourite Young Living product? Why? Explain what the benefits are to you.**  
NingXia Red. I have noticed such a huge improvement in mine and my family's overall general wellbeing, it tastes great, and it's a healthier alternative to a lot of other drinks on the market.

**Were you skeptical about essential oils and the Young Living opportunity before?**  
I have never been an oil sceptic. The first time I used them, I noticed the benefits right away. I was unsure about the business opportunity but started with an open mind and just gave it my best.

**What changed your mind about Young Living?**  
I think the community. That is always something no one ever expects or knows about when joining, but it ends up being one of the most appreciated parts of this business.

## MEMBER SUCCESS STORY

### PLATINUM

#### Why would you recommend others join Young Living?

I recommend Young Living to others, because I have experienced first-hand the benefits and positive results of both their products, and business opportunity and I love inviting people into that.

#### What do you think is the most incorrect myth you heard about Young Living?

The one I hear most, is probably that the business opportunity is a scam.

#### What would your response be to correct this myth if you heard it yourself?

I say that the business is what you make it. It's not a get rich quick scheme and like most things in life, you get out what you put in!
