In the spotlight with:

# Sarah Willingham

### What was your occupation before you joined Young Living?

I've been a Hairdresser since I was 15. I was on Maternity leave when I started using Young Living products. Since starting to share Young Living, I still work in my home studio two afternoons a week - now my focus is all about being a Low Tax Hairdresser. Aligning with my values has seen both businesses flourish!

### What is your favourite Young Living product and why?

The oil that started me talking & never stop sharing was Orange Essential Oil. I had used oils my whole life (a very well-known brand) when I first received a free bottle of orange oil from LR points. My girlfriend told me to drop it on my pillow to help me wind down. I thought she was crazy as at the time I had a 3-month-old, was co sleeping & breast-feeding every 3 hours. I tried it... it worked. I thought it was placebo. It wasn't! Those 3 hours felt like 8 solid hours... I had used oils forever but never Young Living. It was proof in the pudding that there is an absolute difference when you use real, pure oils as nature intended.

### Why would you recommend for others to join Young Living?

We are an entire wellness company - a complete non-stop shop for everything in your home! Young Living takes the overwhelm out of removing harsh chemicals in our homes. You don't have to scan all your products or worry about any nasty ingredients I love their full transparency.

### What, in your opinion, makes Young Living unique?

Our Seed to Seal standard and that we are family owned. I absolutely love "Farm to Family". Also, the business opportunity that allows us, the brand partners, to be the marketer and share our stories. I think that is truly special and you can't buy it anywhere!

### How has your life changed since you joined Young Living?

I don't even know where to begin with this question... Young Living as a product has supported me in so many ways - both my needs and my families! Our community feels like a family I've never had. With the same goal of lowering our toxic load. There is zero judgement but all the support. The income has been a blessing - I never knew the potential when I first started but I am honestly amazed! With hard work and effort, I've been able to travel with YL with my family. We are a family who loves to travel but we didn't think it would be possible when we had our babies for a long while. YL has made that travel available for not only me but also taking family - visiting countries and actually making an impact & serve as well as giving us an incredible experience has been a favourite of ours.
