

Product summary

OmegaGize³TM combines the power of three core daily supplements—omega-3 fatty acids, vitamin D-3, and CoQ10 (ubiquinone). These supplements combine with our proprietary enhancement essential oil blend to create an omega-3, DHA-rich fish oil supplement that may support general wellness. Used daily these ingredients work synergistically to support normal brain, heart, eye, and joint health.*

- Omega-3 fatty acids, DHA (docosahexaenoic acid), and EPA (eicosapentaenoic) have long been studied for their ability to assist natural immune response, cardiovascular functions, and normal brain function.* The sourced omega-3 in OmegaGize³ is one of the purest fish oils available and is rigorously and independently tested to ensure that it is free of environmental pollutants.
- CoQ10 is an oil-soluble, vitamin-like substance found naturally in all animal life. It plays a vital role in the normal function of the body's cells* and is found in highest concentrations in the hard-working organs of the body—especially the heart, liver, and kidneys. As we age CoQ10 levels begin to decline, making it necessary to supplement. OmegaGize³ utilises bio-identical Kaneka Q10TM CoQ10, the highest quality CoQ10 in the world.
- Vitamin D-3 is a fat-soluble vitamin that may help maintain already normal circulation, mood, and improve the body's ability to absorb calcium.*

These premium ingredients are infused with pure clove, German chamomile, and spearmint essential oils to support a healthy response to inflammation and to enhance formula stability and antioxidant protection. The ingredients found in OmegaGize³ are protected from lipid oxidation and capsule hardening by an innovative liquid ocean capsule, which helps ensure that the contents remain potent and fresh. These vital nutrients support normal brain, heart, skin, eyes, and joint function, resulting in an incredible super supplement worthy of the Young Living name.*

Primary benefits

- Supports cardiovascular and skeletal health*
- Supports normal, healthy brain function*
- Supplies critical EPA and DHA nutrients*
- Supports normal immune response and antioxidant levels*
- Promotes normal eye, skin, and joint health*
- Promotes emotional well-being*
- Supports general wellness*

Who should use OmegaGize³?

- Anyone looking to maintain a normal level of well-being*
- Individuals seeking mental clarity and focus*
- Individuals looking for added support for normal cardiovascular function
- Individuals who want to avoid DHA deficiencies and obtain the superior benefits derived from a comprehensive dose of a DHA/EPA supplement
- Individuals looking for additional joint support*

Suggested use

- Dietary: Take 4 liquid ocean capsules daily, 2 in the morning and 2 in the evening for daily maintenance.
- For maximum benefit OmegaGize³ should be taken consistently over time.

Cautions

If you are pregnant, nursing, taking medication, or have a medical condition, consult a health professional prior to use. Consult a pediatrician before giving to a child.

Did you know?

- Natural variances in the clove and German chamomile essential oils may cause soft gel color to vary slightly.
- Vitamin D is a fat-soluble vitamin that is essential for maintaining normal calcium metabolism.*
- Vitamin D is known as the “feel-good vitamin” for its ability to improve mood.
- As we age, fat cells in our skin’s subcutaneous fat layer thin out and tend to get bumpier; omega-3s help make that layer thicker and smooth.*
- CoQ10 is a powerful, fat-soluble, vitamin-like substance found naturally in all forms of animal life.
- Both EPA and DHA are omega-3 fatty acids scientifically classified as nutrients essential to human health.
- Vitamins A, D, and E are fat-soluble vitamins that may help maintain a healthy skeletal system and support visual health.*
