OUR PURPOSE

Young Living is a universally known, household name that is revered and respected for the countless benefits it brings to humanity. Propelled by the world’s purest essential oils and oil-infused products, along with our passionate commitment to empowering individuals to whole-life wellness, we champion the modern essential oil movement. A global, purpose-driven wellness revolution is underway, and Young Living leads the charge.

OUR VISION

To bring Young Living Essential Oils to every home in the world.
Young Living Essential Oils honours its stewardship to champion nature’s living energy—essential oils—by fostering a community of discovery while inspiring individuals to wellness, purpose, and abundance.
SELECTING SEEDS THAT WILL PRODUCE PLANTS WITH OPTIMAL LEVELS OF DESIRABLE COMPOUNDS IS THE VITAL FIRST STEP IN OUR SEED TO SEAL PROCESS.

OUR SUSTAINABLE AGRICULTURE EXPERTISE ENSURES THAT RIGOROUS STANDARDS ARE MET, BOTH ON YOUNG LIVING-OWNED FARMS AND OUR CAREFULLY MONITORED PARTNER FARMS.

WE COMBINE ANCIENT AND MODERN TECHNIQUES TO MAINTAIN THE IDEAL PROFILE OF BENEFICIAL PLANT COMPOUNDS IN EACH BATCH OF ESSENTIAL OIL.

TO GUARANTEE CONSISTENT QUALITY AND PURITY, OUR ESSENTIAL OILS ARE TESTED IN OUR OWN INTERNAL LABS, AS WELL AS IN THIRD-PARTY FACILITIES. YOUNG LIVING ESSENTIAL OILS COME FROM DOZENS OF SOURCES, ALL MEETING OUR STRINGENT SEED TO SEAL® QUALIFICATIONS.

WE COMPLETE OUR SEED TO SEAL® PROCESS BY CAREFULLY SEALING AND INSPECTING EACH BOTTLE OF ESSENTIAL OIL IN OUR STATE-OF-THE-ART FACILITIES BEFORE SHIPPING TO MEMBERS WORLDWIDE.

For more detailed information on our Seed to Seal process and global farms, visit our newly redesigned SeedtoSeal.com.
To ensure that Young Living is able to control every step of the Seed to Seal® process, we own a number of farms and work with many other partner and co-op farms around the world. Our team personally travels worldwide to scout farms that offer ideal conditions for growing premium botanicals. This personal, direct involvement in the growing process allows us to ensure that each Young Living product delivers the purity and efficacy our members count on us to deliver.

Purchased in 2014, our Northern Lights farm grows and distills black spruce, ledum, yarrow, and other botanicals. As part of our commitment to sustainability, this scenic farm will also be the site of continuous reforestation of the trees we harvest, including the black spruce trees, which are crucial for our popular Valor essential oil blend.
These now-200 acres of pristine farmland were Gary Young’s first farm purchase and where Young Living started. Never before or since exposed to harmful, modern farming techniques, this farm grows botanicals such as lavender, melissa, and tansy.

Croatia is a paradise of aromatic plants. It is not only the land of helichrysum (*H. italicum*) but also of many other crops that will be distilled at the newest Young Living facility. This unique facility will be a fully functioning distillery, manufacturing plant, warehouse, and distribution center.

Celebrated for its rolling hills and fields of fragrant lavender, the region of Provence, France, is home to our third farm. This picturesque farm grows lavender, lavandin, rosemary, clary sage, and einkorn grain.

"YOUNG LIVING PRODUCTS DELIVER THE PURITY AND EFFICACY OUR MEMBERS COUNT ON US TO DELIVER."
The site of both the Winter Harvest and Spring Replanting events, the scenic Highland Flats Tree Farm is where members are able to experience our Seed to Seal process firsthand. The farm grows and distills Idaho balsam fir, Western red cedar, pine, Idaho blue spruce, and other conifers and is the home of the world’s first fully automated, state-of-the-art distillery.

The lush, fertile soil in Guayaquil creates a superb environment to grow unique and rare botanicals such as eucalyptus blue, ylang ylang, chocolate, dorado azul, and ocotea, among many others. This farm’s state-of-the-art distillery is the largest in South America.

Since 2010 Young Living has partnered with local Omani harvesters to obtain and secure our supply of Sacred Frankincense resin. Young Living is the first and only company in the world to obtain permission to distill and export this precious essential oil and bring it into the Western world.

We also source many of our essential oils from co-op farms around the world. These respected growers work exclusively with Young Living and pledge to adhere strictly to our Seed to Seal process. As an investor in these farms, we closely monitor the quality and authenticity of the botanicals and oils they provide.

We purchase many of our essential oils from a variety of global vendors whose suppliers abide by our stringent, demanding Seed to Seal process. We rigorously and thoroughly test the essential oils provided by these vendors.

Besides our own farms, Young Living partially owns many others around the world in partnership with independent growers. Our partners agree to adhere strictly to our Seed to Seal process and are carefully vetted for compliance. Through our partner farms, Young Living is able to support local independent farming while maintaining our absolute commitment to quality.
Our farm in Mona has been growing lavender, hyssop, clary sage, peppermint, goldenrod, and more since 1995. It now also grows einkorn grain. This beautiful farm hosts our annual Lavender Day celebration and many other special events.
What are ESSENTIAL OILS?

Lovingly harvested from farm-grown and wildcrafted plants, herbs, and trees, essential oils are concentrated plant extracts obtained by careful steam distillation, cold pressing, or resin tapping. These pure essential oils are far more powerful than the botanicals from which they are extracted. We offer hundreds of single oils, blends, and oil-infused products, each containing the optimal levels of specific, naturally occurring constituents to maximise their potency. Whether you use oils for aromatherapy, personal care, or household solutions, every aspect of daily life can benefit from the incorporation of essential oils!
Pure, authentic essential oils are the foundation of everything Young Living does. We offer products in four categories designed to enrich and simplify your life every day:

How to Use

ESSENTIAL OILS

Follow label instructions and the guide below to experience the transformative benefits of essential oils.

AROMATICALLY

Use essential oils aromatically to uplift the spirit.

• Rub 2–3 drops of essential oil between your palms and inhale.
• Add a few drops of essential oil to a bowl of hot water. Cover your head and bowl with a towel. Breathe deeply and slowly.
• Use your favourite essential oils in our many diffusers designed to gently and effectively bring nature’s aromas into your home or workplace.

TOPICALLY

Many essential oils are safe and beneficial to use directly on the skin.

• Place 2–3 drops of essential oil directly on the desired area and massage in. Repeat as desired. Always follow the label’s dilution instructions.

Caution: Essential oils are very potent and some oils may be irritating to the skin. If irritation occurs, apply Young Living’s V-6 Vegetable Oil Complex or any pure vegetable oil to the area to dilute. Citrus-based oils and blends may cause temporary photosensitivity. When applied directly to the skin, keep that area of skin protected from sunlight and other UV light sources for a period of up to 12 hours.

FLAVOURING

Add selected essential oil singles as a flavouring to your favourite recipes and beverages.

• Add 1 - 2 drops as desired.

Caution: Only use the Essential Oils that have been indicated as suitable for flavouring.
Essential oils are the heart of Young Living and the foundation of our product line. Browse through our products to discover versatile, powerful essential oils and blends backed by our Seed to Seal promise and find the essential oils that are right for you.
