Topical, aromatic and for flavouring

SCIENTIFIC NAME
Elettaria cardamomum

PRODUCT SUMMARY
Cardamom is a member of the ginger family, and features a spicy, refreshing aroma that can be uplifting. The cardamom plant is native to the lush evergreen forests of southern India and has been highly valued as a spice since ancient times. Steam distilled from cardamom seeds, Cardamom essential oil has a rich taste and is one of the world's favourite cooking spices.

EXPERIENCE
This essential oil's signature flavour is common in sweet and savoury dishes and is frequently used in many Swedish baked goods. Cardamom is also a welcome addition to enhance the flavour of hot drinks.

PRODUCT BACKGROUND
Historically known as the Queen of Spices, cardamom has been used in India since ancient times. As long ago as the Vedic period (3000 BC), there was a mention of the use of this spice in wedding ceremonies. Ancient Egyptians used cardamom as a mouth freshener. As a spice, cardamom is also used widely in Indian cuisine. The seeds and the essential oil are used as flavouring components in a variety of foods, including beverages, desserts, candy, baked goods, condiments, gravies, meat and meat products. The extract of the seeds also finds applications in cosmetic formulations.

CAUTION
Keep out of reach of children. If you are pregnant, nursing, taking medication or have a medical condition, consult a health care professional prior to use.

BENEFITS & SUGGESTED USE
• Diffuse up to 30 minutes three times daily for a refreshing aroma.
• Apply topically to skin for a radiant, youthful-looking glow.
• Add to food for a spicy, citrusy and rich taste.
• Add to your favourite dishes to accentuate sweet and savoury flavours.
• Add 1 - 2 drops to your favourite smoothies, green juices or tea for a unique taste experience.
• Because of its high potency, start with dipping a toothpick in the essential oil and swirl it through the ingredients for a lighter Cardamom flavour in your dish; add more if desired.

**SCIENTIFIC NAME**
*Santalum album*

**PRODUCT SUMMARY**
This sandalwood variety is native to India and is steam distilled at our partner farm in Australia’s tropical northern outback to ensure its authenticity and purity. Sacred Sandalwood™ essential oil provides an uplifting, warm, woody and sweet aroma, while offering a variety of skin benefits.

**EXPERIENCE**
Sandalwood is a recognisable base note in many perfumes and fragrances. Its distinctly warm and woody aroma is the perfect complement to pampering spa treatments, relaxation time, yoga and meditation. It can also help enhance the natural radiance of healthy-looking skin and reduce the appearance of fine lines and puffiness.

To ensure the purest, most authentic essential oil possible, Young Living’s Sacred Sandalwood™ essential oil comes from the pristine *Santalum album* species transplanted from its native home in India to our partner farm in Australia, which has a similar landscape and climate. The Australian plantation follows our strict Seed to Seal® guidelines and maintains award-winning sustainability measures to protect this highly sought-after essential oil.

Q. Where are the nuts used in the granola sourced?
A. The almonds, walnuts and pecans used in Einkorn Granola are sourced from within the United States.

Q. What is Saigon cinnamon? Is it the same cinnamon you use to source your Cinnamon Bark essential oil?
A. Saigon cinnamon is sourced from Vietnam and was chosen for its rich flavour and heritage. Saigon cinnamon was selected for its more pronounced flavour, aroma and its high levels of coumarin. It is not the same cinnamon we use for our Cinnamon Bark essential oil.

Q. Is Einkorn Granola considered gluten free?
A. No. Einkorn Granola is not considered gluten free since it contains einkorn wheat, which has gluten in it.

Q. From what is the fruit and grain dextrin derived? What purpose does it serve in Einkorn Granola?
A. Fruit and grain dextrin is a natural fruit juice ingredient - a healthier alternative to corn syrup. It is used as a binder for the granola.
