

PURIFY YOUR HOME WITH

Nature's Home Essentials

YOUNG  LIVING®
ESSENTIAL OILS

What's in your home?

SULFURIC ACID: Can irritate the skin and eyes, may damage the kidneys, liver and digestive tract.

TRICLOSAN: Abnormal endocrine system signaling, weakening of the immune system and an increased risk of allergies, asthma and eczema.

LYE: Can burn stomach, skin, eyes and oesophagus. May cause blindness if it comes into contact with eyes.

FORMALDEHYDE: Thought to cause cancer and brain damage.

THE DANGERS LURKING

in Our Homes

It might not come as a big surprise to you that most commonly used household products are made with synthetic chemicals. But did you know that the majority of commercially marketed cleaning supplies and other household products contain ingredients that could potentially be detrimental to your family's health? If you're not convinced, here are a few chemicals that may be found in the average family's cleaning closet.*

AMMONIA: Can cause breathing problems and burns. May be fatal if swallowed.

CATIONIC DETERGENTS:
Can cause nausea, vomiting, shock, convulsions and coma if ingested.

a Natural Solution

The Thieves story begins in France during the 15th century, when thieves would sneak into graveyards to rob from the dead and dying. Legend says they protected themselves by creating a special aromatic combination composed of clove, rosemary, and other botanicals.

Today's Thieves essential oil blend is inspired by those tales of old. Combining Clove, Cinnamon Bark, Lemon, Eucalyptus

Radiata and Rosemary essential oils, this blend is one of Young Living's most popular products, and is at the centre of our healthy living product line.

By utilising this powerful combination, you can replace the potentially harmful products in your home and create a more natural, welcoming space, without sacrificing effectiveness.

CLEAN + NATURAL

What could be better than that?

WHAT'S INSIDE
THIEVES

Thieves essential oil blend is a combination of five essential oils that have been lauded for their powerful natural benefits for centuries.

CLOVE ESSENTIAL OIL

Clove has a spicy, warm scent that always feels familiar. The flower bud and plant stem are steam distilled to produce a rich, strong essential oil. This process results in the appearance of eugenol, a powerful constituent that makes this essential oil so potent. Clove essential oil uses include topical applications such as massage oils and personal care products.

CINNAMON BARK ESSENTIAL OIL

Warm and comforting, the familiar aroma of Cinnamon Bark essential oil comes from the naturally occurring constituent cinnamaldehyde. Cinnamon Bark, combined with Clove essential oil, gives Thieves its signature spicy aroma.

LEMON ESSENTIAL OIL

Lemon essential oil is cold-pressed from the rinds of lemons, giving its aroma all the brightness of the freshly picked fruit. Cheerful, sweet and nostalgic, Lemon oil can help eliminate odours and infuse your whole home with its clean, lemon-drop scent when diffused.

EUCALYPTUS RADIATA ESSENTIAL OIL

Eucalyptus Radiata essential oil is loved for its fresh, pungent and fruity aroma, making it ideal for massage after activity. Diffuse Eucalyptus Radiata to promote a stimulating and rejuvenating environment. Due to its gentle aroma, Eucalyptus radiata is the preferred choice for children. It is one of the most versatile eucalyptus oils.

ROSEMARY ESSENTIAL OIL

Rosemary essential oil is steam distilled from a perennial shrub with needle-like leaves that can remain evergreen in warmer climates. The botanical, which is part of the mint family, is native to Mediterranean regions and has blue or purple flowers that give it an understated beauty. The familiar scent of Rosemary essential oil - as well as its robust, herbaceous aroma - has made it popular in aromatic and personal care products.

OTHER PRODUCTS

you'll love

In addition to the products contained in this bundle, Young Living offers a variety of other plant-derived products that you may love to have around the house. Here are just a few to get you started.
