PRODUCT BACKGROUND

While travelling 23 years ago to seek the secrets of longevity, energy and vitality, D. Gary Young was introduced to a delicious berry that had been prized for thousands of years in China for its powerful wellness-supporting benefits. He learned that the people who regularly ate this berry led remarkably long and healthy lives. Gary also learned that Chinese biochemists at the Ningxia Institute of Nutrition had analysed the wolfberry and found it to be one of the most nutrient-dense foods on the planet. Gary became convinced that this superfruit needed to be made available to the world.

FREQUENTLY ASKED QUESTIONS

Q. When is the best time to drink NingXia Red®?

A. NingXia Red® is great any time of day! However, many people prefer to drink it first thing in the morning for a boost of superfruit power.

Q. Why does NingXia Red® contain stevia?

A. NingXia Red® contains stevia to naturally reduce the caloric content. Stevia is 300 times sweeter than sugar, allowing for a delightfully delicious beverage with only 5 grams of naturally occurring sugar per 60 ml serving. It also provides the best sugar-alternative flavour with the least amount of aftertaste.

Q. Can I add extra essential oils to NingXia Red®?

A. Absolutely! We encourage you to customise your daily serving of NingXia Red® by experimenting with your favourite culinary essential oils.

Q. What is grape seed extract and why is it used?

A. Grape seed extract is a patented product made in California from a special seed blend that comes primarily from varietal white wine grape seeds. The seeds are extracted with hot water and then purified, concentrated, and spray dried into a phenolic grape seed extract powder.
