

Product Summary

Young Living's AromaLux Atomizing Diffuser functions as an aroma diffuser, air purifier, and atomiser in one simple-to-use product. Its atomising technology transforms essential oils into a vapour of millions of microparticles, dispersing them into the air and releasing the powerful plant constituents found in Young Living essential oils.

Designed by D. Gary Young and available exclusively through Young Living, the AromaLux utilises proprietary design principles, patterns, and shapes that enhance and harmonise the energy field in the surrounding space.

Primary Benefits & Features

- Diffusing essential oils is a perfect way to relax, dispel odours, and create an atmosphere of peace and harmony.
- Transforms any space into an inviting, aroma-filled atmosphere.
- Atomises essential oils into a microfine vapour.
- Quick and easy bottle replacement system.
- Master timer off switch with 1–10 hours of diffusion.
- Adjustable diffusion run and pause timers (1–20 minutes).
- Vapour volume output control.
- Six different LED display light settings.
- Compatible with 5ml and 15ml Young Living essential oil bottles.

Suggested Use

1. Remove the AromaLux atomiser top from the diffuser base.
2. Attach a Young Living 5ml or 15ml essential oil bottle to the AromaLux atomiser top.
3. Place the AromaLux top with the essential oil bottle attached back into the diffuser base.
4. Adjust settings for vapour volume, master timer, diffusion run timer, diffusion pause timer, and turn on the power switch.
5. Adjust the LED display light setting and enjoy the benefits of 100% pure essential oils.
6. Please refer to Operation manual for detailed instructions.

Cleaning

- For optimal performance, periodically run the unit with a clean bottle filled with 5ml to 10ml of rubbing alcohol until the bottle is empty.
- To clean the atomizer top, periodically remove it from the diffuser base, remove the dip tube, and attach a 15ml bottle containing rubbing alcohol. Cover the oil vapour exit port with your finger, and shake vigorously to force alcohol into the upper chamber.
- If essential oil begins to build up on the unit, unplug the unit and gently wipe off using a soft cloth and a mild cleanser.

Cautions

- Keep out of reach of children.
- If you are pregnant, nursing, taking medication, or have a medical condition, consult a health professional prior to use.
- For all other safety and care information, please refer to the AromaLux Operation Manual.

Did You Know?

- Designed by D. Gary Young, the AromaLux is available exclusively through Young Living.
- Created using patents-pending technology and proprietary design principles.
- Atomizing diffusion disperses essential oils into the air without heating or burning, unlike aroma lamps or candles that reduce the benefits and can even emit toxic compounds.

Why use the AromaLux?

The AromaLux diffuser is Young Living's most technically advanced diffuser. This device incorporates the latest technological improvements in diffuser design and manufacture to provide optimum atomisation efficiency.

- **High Output:** The AromaLux generates a high vapour volume output of 100% pure essential oils for maximum benefits.
- **Customisable:** Adjustable volume, run time (with automatic shut off), and pause settings make the AromaLux Young Living's most customisable diffuser yet.
- **Quiet:** The only noise from the AromaLux is the soft hum of the motor generating the essential oil vapour.
