

Product Summary

Essentialzymes-4 is a multi-spectrum enzyme complex specially formulated to aid the digestion of dietary fats, proteins, fibre, and carbohydrates commonly found in the modern, processed diet. Essentialzymes-4 combines a variety of specially selected enzymes into a single solution to help the body more completely break down problematic foods such as high fats and excessive starch. The dual time-release technology releases the enzymes at separate times within the digestive tract, allowing for optimal absorption of key nutrients and amino acids.

The yellow coloured capsule is designed to release immediately upon entering the stomach, where the pH environment is generally more acidic and more conducive to the enzymes contained in the capsule.

The natural coloured capsule is designed to delay its release in the lower intestine region, where the environment is more alkaline and the pH level is more suited to the enzymes contained in the capsule.

Primary Benefits

- Supports proper fat, protein, fibre, and carbohydrate breakdown and digestion.
- Improves nutrient absorption.
- Unlocks key food minerals and improves energy derived from foods.
- When consumed with meals, Essentialzymes-4 provides key digestive enzyme groups needed for the proper breakdown of fats, proteins, fibre, carbohydrates, and processed foods.
- Formulated to support a more complete digestive cycle.
- Daily use enhances nutrient absorption, unlocks food minerals, improves critical energy uptake derived from food, and supports the generation of vital amino acids needed for healthy cells and organs.
- Each capsule is infused with essential oils such as lemongrass, ginger, and fennel to assist with minor intestinal discomfort.

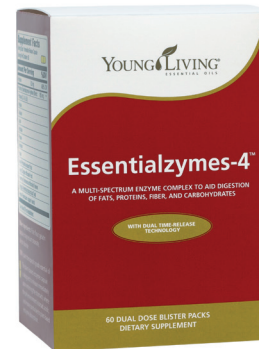

Who Should Use This Product?

Adults 18 years or older

Ingredients

Proprietary Essentialzymes-4 (yellow) Blend: 185 mg

Ingredients: Rice flour, Capsule: Gelatin, Protease 4.5, Amylase, Protease 6.0, Cellulase, Lipase, Peptidase, Protease 3.0, Phytase, Bromelain, Papain, Riboflavin USP, Anti-caking agents: Magnesium stearate and Silicon dioxide, Anise (Pimpinella anisum) fruit oil, Ginger

(Zingiber officinale) root oil, Rosemary (Rosmarinus officinalis) leaf oil, Tarragon (Artemisia dracunculus) leaf oil, Fennel (Foeniculum vulgare) seed oil.

Proprietary Essentialzymes-4 (natural) Blend: 185 mg

Ingredients: Rice flour, Bee pollen, Capsule: (hydroxypropyl methylcellulose), Pancreatin, Anti-caking agents: Magnesium stearate and Silicon dioxide, Lipase, Ginger (Zingiber officinale) root oil, Fennel (Foeniculum vulgare) seed oil, Tarragon (Artemisia dracunculus) leaf oil, Lemongrass (Cymbopogon flexuosus) leaf oil, Anise (Pimpinella anisum) fruit oil

Suggested Use

Take 2 capsules with your two largest meals of the day.

Cautions (refer to individual packaging)

If you are pregnant, nursing, taking medication or have a medical condition, consult a health-care practitioner prior to use.

Did You Know?

- Bromelain is a general name for proteolytic enzymes that are obtained from the stems and fruit of pineapple.
- Ginger is used in many applications as a digestive aid.
- Lemongrass is used in many teas to ease minor digestive discomfort.
- Fennel was used to ward off evil spirits and to protect against spells believed to be cast by witches and is listed on one of the oldest known medical records, the Ebers Papyrus, which dates from the 16th century B.C.
- The main function of Essentialzymes-4 is to aid digestion of fats, proteins, fibre, and carbohydrates. Essentialzyme has a different purpose, to assist with healthy pancreatic function. If you decide it is necessary you can take both Essentialzyme and Essentialzymes-4.
