

# Lip Balm Trio

## Product Summary

Young Living's line of lip balms feature plant-based ingredients combined with (YLTG) essential oils to indulge the lips and senses.

## Product Story

Many people seek weekly facials, daily skin scrubs, anti-aging lotions, and many other products to ensure they have healthy, glowing skin. But with all the attention being given to healthy skin, lip care is largely forgotten.

The skin of the lips is thin compared to the skin of the face, and lips also lack the usual layer of body oils that help keep skin smooth and healthy. That's why daily use of one of Young Living's three lip balms is vital to help lips stay healthy and protected.

## Products:

- + Cinnamon™ Lip Balm is rich in botanicals that quench dry, parched lips while protecting them from climatic extremes.
- + Lavender Lip Balm retains the calming properties of lavender essential oil, repairing and moisturising dry lips.

- + Grapefruit Lip Balm is a light and refreshing addition to daily lip care, helping to prevent dryness.

## Primary Benefits

Young Living's lip balms offer a natural way to maintain and promote healthy lips. Vitamin E, jojoba oil, and wolfberry seed oil lend a hand in keeping lips soft and moist, while the essential oils offer a nourishing and refreshing effect.

## How To Use

Apply liberally to prevent, repair, moisturise, and soothe dry lips.

## Did You Know?

- + Lips do not contain oil glands, causing them to dry out naturally.
- + Cosmetics and regular lip balms/lipsticks contain chemicals such as petroleum, increasing the frequency of chapped lips.
- + The artificial flavourings used in flavoured lip balms can increase lip sensitivities, dryness, or even cause allergies.

# Lip Balm Trio

## What Makes This Product Unique?

Great effort was taken to create lip balms with natural ingredients such as jojoba oil, wolfberry seed oil, rosehip oil, and vitamin E. Each lip balm is also infused with YLTG essential oils that help nourish, moisturise and refresh lips.

## Key Ingredients

- + Jojoba oil is known for its skin-softening properties which can prevent lips from dehydrating.
- + Wolfberry seed oil is renowned for its moisturising and skin conditioning properties.
- + Rosehip oil is excellent for maintaining the natural moisture balance in skin.
- + Vitamin E is a legendary antioxidant that plays an essential role in the lip balm base.
- + Peppermint essential oil energises and revitalises skin.
- + Cinnamon essential oil is an excellent antioxidant.
- + Lavender essential oil is soothing and nourishing to skin.
- + Grapefruit essential oil is light and refreshing for tired and dry lips.

## Note

Research shows\* that the level of grapefruit essential oil included in the Grapefruit Lip Balm should pose no photosensitivity issues. To support this research, Young Living performed in-house photosensitivity testing. \*IFRA (International Fragrance Research Association)”
