

Thieves®

THE YOUNG LIVING STANDARD

There is a significant difference between essential oils that simply smell good and those that are produced to the highest and purest standard possible.

Independent laboratory testing proves that Young Living essential oils meet and often exceed industry requirements, and as stewards of nature's plant remedies, Young Living maintains higher internal standards, built upon the magnitude of our own rigorous Quality Assurance requirements. In order to achieve this high quality standard, each essential oil must achieve the designation naturally, without excess manipulation and refinement, and meet specific criteria in four key areas: Plants, Preparation, Purity, and Potency.

PLANTS Young Living products are produced from the right plants, grown in exceptional soil, and harvested at exactly the right time.

PREPARATION Honouring a strict commitment to respect and protect the time-honoured methods of distillation, Young Living makes every effort to preserve "nature's living energy" in a manner as close to its natural state as possible. Using pure mountain water free of additives, Young Living has a proprietary, stainless steel distillation process that uses low temperature and low pressure to better preserve plant properties, capture the pure essence of the plant, and preserve the quality of the oils.

PURITY Achieved through the use of quality plants and meticulous preparation, and not through ultra-refinement, our finished product is 100% pure. Young Living essential oils are unadulterated, uncut, and free of chemicals, pesticides, and heavy metals.

POTENCY To guarantee our products exceed existing world standards and meet our own higher internal standards for potency, we analyse the finished oil's phytochemical profile to ensure it delivers optimal amounts of every key plant compound.

History of Thieves

Young Living's Thieves essential oil blend was created based on the historical account of four thieves in France who protected themselves from the black plague with cloves, rosemary, and other aromatics while robbing victims of the killer disease. When captured, they were offered a lighter sentence in exchange for their secret recipe. Young Living's proprietary Thieves oil blend includes clove, cinnamon bark, rosemary, lemon, and Eucalyptus radiata and has been specially blended to offer the same kind of properties.

Utilising the power and protection of Thieves essential oil blend, Young Living created an extensive line of natural household products. From toothpaste and mouthwash to cleaning products and hand soaps, the Thieves product line provides safe, natural alternatives for use in the home.

Thieves Essential Oil Blend

The oil blend that comprises Thieves is known for enhancing complete health and total well-being. Each of the oils selected makes Thieves one of Young Living's most effective and favourite products.

CLOVE oil, nature's richest source of eugenol, is the highest-scoring single ingredient tested for its antioxidant capacity on the ORAC scale. Clove has been widely used in many traditions and is associated with immune function and warming properties.

With 68 percent d-limonene, **LEMON oil** is a powerful antioxidant known for its ability to act as a natural solvent and cleanser.

High in antioxidants, **CINNAMON BARK** has a reputation for relieving discomfort during the winter season and supporting the digestive system.

As one of the most versatile of the eucalyptus oils, **EUCALYPTUS RADIATA** has many health-promoting properties. This powerful essential oil contains eucalyptol as one of its major elements, which has demonstrated topical cleansing effectiveness.

ROSEMARY oil is naturally energising and may be beneficial for helping restore mental alertness when experiencing fatigue.

DIFFUSING

Thieves essential oil blend with Young Living's patented diffusing system creates a safe and simple means of filling your home with cleansing aromas. Many forms of bacteria and mould spores linked to many common ailments can travel through the air. Diffusing Thieves adds an extra layer of protection by refreshing the air while adding an uplifting scent to your home.

Thieves Cleaning Products

IN THE KITCHEN

Taking the proper precautions when preparing food can help to prevent foodborne illness. Because many of the essential oils in the Thieves blend have the natural ability to protect against bacteria, the kitchen is the perfect place to take advantage of Thieves soaps and spray.

IN THE BATHROOM

Bacteria tend to accumulate in the bathroom. Washing your hands with Thieves soaps and cleaning countertops, toilets, and other surfaces with Thieves products can minimise the spread of bacteria from the bathroom to other areas of your home.

THIEVES FOAMING HAND SOAP

Cleanse, defend, and condition the skin with Young Living's new Foaming Hand Soap, featuring the essential oil blend Thieves, pure lemon and orange essential oils, Ginkgo biloba, and vitamin E. Many soaps on the market rely on the synthetic ingredient triclosan to defend against harmful bacteria. The CTFA/INCI certified ingredients in Thieves Foaming Hand Soap are a great natural alternative and are gentle enough to be used regularly without drying or stripping the skin.

THIEVES FOAMING HAND SOAP

ESSENTIAL OILS

Thieves, Orange, Lemon

THIEVES WATERLESS HAND PURIFIER

As an all-natural product, Thieves Waterless Hand Purifier promotes good hygiene by cleaning and refreshing the hands without the use of water anytime, anywhere.

THIEVES HAND PURIFIER

ESSENTIAL OILS

Clove, Cinnamon, Rosemary, Lemon, Peppermint, Eucalyptus Radiata

THIEVES SPRAY

Bacteria can be easily spread from person to person by way of the surfaces in your home. By keeping these surfaces clean, you are protecting your family from bacteria and illness. Young Living's Thieves Spray is easy-to-use and a natural, convenient product to help clean and protect every surface in your home, including countertops, appliances, fixtures, chairs, railings, doorknobs, sinks, toilets, and a variety of other household items.

THIEVES SPRAY

ESSENTIAL OILS

Thieves, Clove

THIEVES CLEANSING SOAP

Enriched with the powerful Thieves essential oil blend, moisturising plant oils, and botanical extracts, Thieves Cleansing Soap helps to purify, cleanse, and promote soft, healthy skin.
