

LAVENDER HAND SOAP

Product Summary

Lavender Foaming Hand Soap, part of Young Living's Lavender Signature Series, is a gentle, cleansing addition to our all-natural product line-up. Refreshing and rejuvenating to even the most sensitive skin, just a small amount of this fragrant soap cleanses and conditions your skin without leaving it dry or irritated. Infused with lavender essential oil, Lavender Foaming Hand Soap is a household favourite.

Liquid hand soaps are a big trend in the personal care industry, particularly those with antibacterial properties; however, some can contain harsh chemicals and fragrances, leaving many searching for a natural, safer alternative. Lavender Foaming Hand Soap is formulated with natural ingredients, and has been dermatologist tested and found to be safe for all skin types, including sensitive skin.

Primary Benefits

- The essential oils in Lavender foaming hand soap penetrate deep into the skin to act as a protective barrier long after you wash your hands.
- Lavender Foaming Hand Soap is pH balanced, which reduces the disruption of the skin's natural moisture complex and leaves important lipids in place to maintain a proper moisture balance in the skin.
- Vitamin E, aloe vera, and Ginkgo biloba are added to condition and protect the skin.

Who Should Use This Product?

- Lavender Foaming Hand Soap can be used by children and adults, including those with sensitive skin, for natural and effective cleansing.

Ingredients

Lavender, lemon and myrrh essential oils. Aloe Barbadensis leaf juice (aloe vera), Tocopheryl Acetate (vitamin E), Retinyl Palmitate (vitamin A), and Ginkgo Biloba.

How to Use

Pump foam into hands, lather, then rinse thoroughly.

Cautions

- Not for internal use. Avoid contact with eyes. Keep in a cool area away from direct sunlight.

Did You Know?

- The methods used to distil lavender essential oil thousands of years ago are the very same methods we use today to distil essential oils.
- Lavender Foaming Hand Soap's primary surfactant, decyl glucoside, is derived from corn sugars and sugar beets, and is often used in products for sensitive skin.

Complementary Products

- Lavender Hand & Body Lotion
- Lavender Bath & Shower Gel
- Lavender Lip Balm
- LavaDerm™ Cooling Mist

FAQs

- Q I have heard that essential oils can be very drying to the skin. Will the essential oils contained in lavender foaming hand soap dry out my skin if I use this soap?
- A No, actually its effects are quite opposite. Because essential oils can be drying to the skin, specific ingredients such as aloe, vitamin E, and Ginkgo biloba were added to restore moisture.
- Q Why doesn't Lavender Foaming Hand Soap have a thick lather like other foaming soaps?
- A Many people are under the impression that thicker lather means deeper cleaning, when in fact, it is primarily the other ingredients and not the lather that is cleaning the hands. The ingredients that cause soap to foam are called surfactants, and rich foaming surfactants are made from synthetic ingredients, which may be irritating to the skin. Lavender Foaming Hand Soap is formulated with natural surfactants, derived from sugar beets, so it gently and effectively cleanses the skin.
