Natural Lullaby

Made in France from fresh lavender harvested from our Simiane-la-Rotonde farm, Lavender Floral Water is distilled in a traditional copper distiller – a gentle extraction process that optimally preserves the aromatic compounds* naturally contained in the plant. The result? More natural calm, more blissful shut-eye. Forget artificial sleep aids and let nature sing you its soothing lullaby instead.

*May contain natural constituents of floral water: Coumarin, Geraniol, Limonene, Linalool.

If there's one thing to add to your bedtime routine, it's a spritz (or two!) of Young Living's Lavender Floral Water.
