

MAY PV PROMO

Take care of yourself from top to bottom this month with free products.

For you, it's only natural to focus outward and take care of the people you love. With May's PV promo, we're giving you the essential oils (with everyday tips to match) to take care of yourself as you work toward whole-body wellness!

As you take steps to transform your own life, start with your spirit. Rub minty-scented EndoFlex into the back of your neck to bring on the balance. Dip into a Frankincense-infused bath for a moment of mindful peace. Thank your body for its hard work with a pick-me-up Deep Relief Roll-On massage. This month, with these oils and more, remember that it's okay—totally encouraged, actually—to carve out a little “me” time.
