

Our skin care system meets traditional wisdom with esthetic expertise. Combining pure essential oils and botanicals with naturally derived formulas, Young Living skin care can help you uncover your natural radiance. Follow these five simple steps to find your glow:

1

Exfoliate

Exfoliating removes the dead skin cells that can naturally build up and give the surface of the skin a dull appearance, leaving your complexion looking softer and smoother. Our invigorating Satin Facial Scrub™ Mint has soft jojoba beads to gently buff the surface of the skin and cleanse natural buildup for a smoother appearance. Depending on your skin type, you should exfoliate no more than 2–3 times per week to prevent irritation.

2

Cleanse

Your skin collects dirt and impurities from the environment that need to be cleansed away daily. With help from an infusion of pure essential oils and other gentle, naturally derived ingredients, ART® Gentle Cleanser cleanses the skin and washes away pore-clogging residues such as oil, dirt, and makeup for a clean and irresistibly soft-looking complexion.

3

Tone

Toner is the reset button for your skin. While cleansing removes dirt and buildup from pores, toning is the next step in an effective skin care regimen for less-visible pores and smoother looking skin. Gentle and non-drying, ART Refreshing Toner nourishes, banishes the appearance of impurities, and balances, while infusing the skin with a combination of pure essential oils, green tea extract, and more for a more smooth look.

4

Restore

Targeted care is important as your skin ages. Infused with essential oils and exotic orchid petal extract, ART Renewal Serum's unique formula applies smoothly to nourish the complexion, help restore a more youthful appearance, and rejuvenate delicate facial skin.

5

ART Light Moisturizer: Luminizing formula made with advanced botanical extracts

Sheerlumé™: Light cream designed to brighten and even the appearance of skin tone

Boswellia Wrinkle Cream: Made with Frankincense essential oil for a deeply hydrating cream that may help smooth the appearance of healthy-looking skin*

Sandalwood Moisture Cream: Ultra-hydrating cream with pure botanical oils to nourish and protect the skin

Moisturize

Moisturizing daily is the essential beauty secret that's no secret. This crucial step hydrates, nourishes, and improves the appearance of skin, while locking in the benefits of previously applied products. Always be sure to choose a moisturizer that fits your unique complexion.
