

PRODUCT SUMMARY

AgilEase™ is a joint health supplement that's perfect for individuals who are looking to keep up their active lifestyles by supporting joint mobility and flexibility. Formulated with ingredients that support joint health, AgilEase can reduce acute joint discomfort and support the body's healthy response to inflammation from exercise.

Its unique and powerful ingredients such as frankincense resin powder, UC-II® undenatured collagen, hyaluronic acid, calcium fructoborate, and a specially formulated proprietary essential oil blend are known for their joint health benefits. With its synergistic formula, AgilEase delivers results in smaller doses than most joint supplements—in just two daily capsules compared to others' four daily capsules.

Take AgilEase to improve joint health or as a preventative measure to protect joint and cartilage health. It is especially beneficial for athletes and active individuals of all ages who want to support their joints and cartilage.

KEY INGREDIENTS

Frankincense resin powder, UC-II collagen, Calcium fructoborate, proprietary essential oil blend of Wintergreen, Copaiba, Clove, and Northern Lights Black Spruce

EXPERIENCE

When you open your bottle of AgilEase, you'll enjoy the slightly minty scent of the capsules. Swallowing the small capsule is easy and leaves no aftertaste.

PRODUCT BACKGROUND

The frankincense powder in this formula is the natural byproduct of steam distillation of our Sacred Frankincense (*Boswellia sacra*) essential oil. Our frankincense is grown on our Young Living Salalah Farm in Salalah, Oman, where we've secured special permission to export this valuable commodity.

The essential oil blend in AgilEase utilizes our exclusive Northern Lights Black Spruce (*Picea mariana*) from Young Living's Northern Lights Farm in British Columbia, Canada.

FREQUENTLY ASKED QUESTIONS

Q. Does AgilEase need to be taken daily or as needed? How soon can I expect results from AgilEase and what should I expect?

A. AgilEase is designed with ingredients that deliver results within the first few weeks of beginning a daily regimen and other ingredients that will take longer to take effect but will continue to increase in benefit the longer you use it. Best results are found when taken continuously at least for 6 weeks. You can expect to experience relief from acute joint discomfort and a healthier response to inflammation during exercise, allowing you to enjoy better flexibility and mobility.

Q. How is AgilEase different from similar competitors' products?

A. The primary difference between AgilEase and competitors' products is the inclusion of Sacred Frankincense resin powder from Young Living's Oman Farm, hyaluronic acid, and calcium fructoborate. Additionally, our competitors do not offer UC-II undenatured collagen in their joint supplements.
