

PRODUCT SUMMARY

Pamper those paws! Animal Scents Ointment includes pure essential oils and other naturally derived ingredients to moisturize, soothe, and soften skin. This rich, intensely hydrating salve is appropriate for everyday use, suitable for most animals, vegan friendly, and certified cruelty free. Because it's formulated without parabens phthalates petrochemicals animal-derived ingredients or synthetic preservatives, fragrances, or colorants, it will not harm animals should they become curious and lick the applied ointment.

KEY INGREDIENTS

Apricot kernel oil, Sunflower seed oil, Mango seed butter, Castor seed oil, Avocado oil, Tea Tree and Myrrh essential oils

EXPERIENCE

A softening, moisturizing ointment that absorbs smoothly, this super versatile formula replenishes your animal's skin's moisture barrier.

PRODUCT BACKGROUND

Animal Scents Ointment is a protective, soothing salve designed specifically for external use on animals. The gentle and safe formula is enhanced with pure Tea Tree (*Melaleuca alternifolia*) and Myrrh, two of nature's most powerful essential oils. As one of the first products in the Animal Scents line, this ointment is known to be a trusted tool for soothing and deeply hydrating animals' skin. Reformulated with 100 percent naturally derived, plant-based ingredients, this ointment was made with you, your pets, and the environment in mind.

†Pure Essential Oil

FREQUENTLY ASKED QUESTIONS

Q. Can this product be used on cats, as it contains Tea Tree, which in some cases may be harmful to them?

A. Cats are extremely sensitive to essential oils and all products should be used with caution. Several Young Living members successfully use Young Living products on or around their animals. For more information on how to utilize the Young Living products for your pets, you may want to contact your pet's care provider.

Q. The ointment appears hard and waxy. Is this normal?

A. This consistency is typical of this product. The ointments are filled when they are hot liquid. When the product cools, it forms a hard, waxy substance due to the natural plant wax in the formula. As you warm the product in your hands, it will have more of an ointment consistency.

Q. Are there areas on my pet where I should not use this product?

A. While the ingredients are mild, it should not be used on the animal's eyes, nose, or mouth.
