

PRODUCT SUMMARY

Australian Ericifolia essential oil, commonly known as "Lavender Tea Tree," synergistically combines the benefits of Tea Tree with the soothing nature of Lavender. Found in Tasmania, the vivacious *Melaleuca ericifolia* plant is steam distilled to create an essential oil that is sweet and woody with lingering notes that are freshly floral.

Australian Ericifolia is a powerful addition to your beauty routine and aromatherapy sessions. It's also great to keep on hand for everyday skin irritations. Its dynamic benefits and familiar aroma will have you reaching for this unique oil day and night.

KEY INGREDIENTS

Melaleuca ericifolia essential oil

EXPERIENCE

Australian Ericifolia has a subtle aroma that blends the herbaceous, refreshing qualities of its cousin Tea Tree and the floral sweetness of Lavender. When diffused it boosts your every space.

PRODUCT BACKGROUND

Australian Ericifolia comes from wildcrafted populations of *Melaleuca ericifolia* grown on Flinders Island in Tasmania. The bright plant grows 10-26 feet tall around the coast and hilly slopes. With an aroma and benefits often compared to Tea Tree, Australian Ericifolia is a member of the same family as this EO favorite. Only select populations are harvested to ensure oil consistency and sustainability.
