side effects

# 60 days to a better you

## WHAT TO EXPECT

In just 60 days, the Burn Challenge will help you change the game for your wellness and weight goals.

The daily habits in this challenge work hand in hand with the Balance & Burn™ System, helping you get the most out of each formula. When you pair healthy habits with science-backed support, you set yourself up for results you can feel—and keep—long after the 60 days are over.\*

This isn't about quick fixes or extreme routines. It's about steady, daily support to help your body use fat efficiently, maintain healthy blood sugar metabolism, and support GLP-1 production—so you can feel confident and in control of your progress.\*

## YOUR JOURNEY STARTS NOW

Take your Balance & Burn™ supplements each morning (you'll need to take them every day for 60 days).

Move your body for 30 minutes—it can be all at once or broken up throughout the day.

Hydrate with at least 64 ounces of water to support metabolism and energy.

Fuel your body with real food—choose nutrient-dense, whole foods that energize and support your goals.

# Measure your progress

The Balance & Burn™ System supports your whole wellness journey, not just the number on the scale. Measurements, progress pics, and your before-and-after assessment will help you see changes in body composition even if your weight stays the same.

Take your measurements before you start, once a week, and at the end of the challenge.

For consistent tracking, measure and weigh yourself at the same time each week—ideally in the morning after using the bathroom and before eating.

## STARTING DATE

### PROGRESS PICTURE TIPS

Pictures tell a more complete story than the scale.  
Here's how to capture your progress accurately:

**01.**

Wear form-fitting activewear or swimwear that shows your stomach.

**02.**

Stand against a plain wall and use the same spot each time.

**03.**

Take photos in natural daylight if possible, or a well-lit room.

**04.**

Stand tall—shoulders back, arms relaxed—and recreate the same pose each time.

**ARMS**  
Stand up straight with one arm relaxed and find the midpoint between your shoulder bone and the elbow of that arm. Measure around your bicep.
