

[Creative ways to support the 5x5 Pledge at your New Year Kickoff event](#)

Empowerment ideas

Donate the proceeds from any of the activities below to The D. Gary Young, Young Living Foundation to support the Empowerment goal of Young Living's 5x5 Pledge.

- If you or someone in your upline/downline has unique knowledge or experience on a topic (business building, starting conversations with strangers, training and education, etc.), auction off an hour of their time to do a personal training with the winner and their team, either in person or virtually.
- Purchase Young Living products and auction them off to the highest bidders.
- Have a Sole Hope station where attendees at your event can cut out shoe patterns for the mission.
- Buy a higher-end oil or have someone in your upline donate one and sell raffle tickets to guests to try and win the oil.
- Have your team put together Young Living product-related gift baskets and hold a silent auction. Baskets could include different types of oils, oil-related accessories, self-care or whole-life wellness items, etc.
- NingXia bar: Order NingXia Red®, NingXia Nitro®, and NingXia Zyng® and a selection of Vitality™ oils and sell NingXia shots, just like at Club Red at the International Grand Convention.

Zero-waste ideas

Use any of the following ideas to highlight the zero-waste efforts Young Living is making as part of the 5x5 Pledge.

- Reuse old NingXia bottles as decor. Fill the bottle with fairy lights that attach to a cork and you'll have YL-branded decor and pretty lighting in one.
- Clean out empty 5 ml oil bottles, remove the labels, and then fill with Thieves® Fruit & Veggie Soak or Thieves® Household Cleaner to give out as samples! The 5 ml bottles hold just about one capful.
- Go as paperless as possible. Encourage attendees to try and brainstorm, take notes, reach out to prospects, etc., via an electronic device instead of writing with pen and paper.
- Make sure any DIY projects you do at your event are earth friendly. Some ideas include making:
 - Bird feeders from recycled materials
 - Bottle cap mosaics
 - Vertical hanging gardens

- Decorative vases
- Cute plastic planters
