FREQUENTLY ASKED QUESTIONS

Q. What is the appropriate age for use?

A. Shower steamers can be used by the whole family.

Q. Approximately how long does a steamer last before it completely dissolves?

A. When used as directed, a tablet should last for a normal shower time. Place the shower steamer on the shower floor or a shelf where it gets wet but is outside the direct water stream. If any portion of the tablet remains at the end of your shower, set it directly in the water stream until it disappears.

Q. What color are the shower steamers (and what are they colored with, if applicable)?

A. There are no synthetic colorants added to the steamers; Citrus Fresh Energizing Shower Steamers range in color from white to yellow as a natural result of the essential oils used.
