

# HAVEN CERAMIC DIFFUSER

Item No. 32939

---

Add a fresh pop of natural fragrance and a warm, natural glow to your home with Young Living's Haven Ceramic Diffuser. Carefully crafted from natural porcelain ceramic, this chic, petite diffuser is inspired by midcentury modern design, giving it a modern look that accentuates any space and style. Designed as an accent or centerpiece with its sophisticated and sleek shape, this exclusive essential oil diffuser creates an ambiance that uplifts and soothes the heart and soul.

Each cover is made of fine porcelain ceramic, which is commonly used for works of art, useful dishes, and decorative and durable tile throughout the world. Artisans fire each molded piece of white clay twice to achieve the translucence of pure white porcelain as well as the desired shine and hardness. It is harder, denser, and less porous than regular ceramic, making it more scratch-, chip-, and stain-resistant and better able to hold up against heat and UV rays.

Offering up to four hours of diffusion with a choice of three automatic timers, its translucent glow can set the mood to create your serene safe haven.

## CONTENTS:

- Haven Ceramic Diffuser
- AC power adapter
- Operation manual

## BENEFITS AND FEATURES

- Crafted porcelain ceramic cover design made from natural materials
- High diffusion mode runs up to four hours
- Three timer options for automatic shutoff after one, two, or three hours
- LED light gives a translucent glow and dimmer options that can run independent of diffuser function
- Compact, space-saving size that fits easily on tabletops, in bathrooms, and in offices
- Essential oil diffusion coverage for medium-sized rooms of up to 375 square feet

# HAVEN CERAMIC DIFFUSER

## PRODUCT BACKGROUND

The art of creating fine porcelain ceramics evolved in China more than 2,000 years ago. It spread across the globe and was used to craft various works of art, dishes, and decorative but durable tile. Porcelain is a type of ceramic baked in a kiln, although it is finer than typical ceramic because it is made from refined white clay instead of red or brown clay. Artisans fire each molded ceramic cover twice at 2,500°F (1,400 °C) to reach the translucence of the pure white porcelain ceramic beneath the ultra-clear glaze, as well as to achieve the desired shine and hardness. It's harder, denser, and less porous than regular ceramic, making it more scratch-, chip-, and stain-resistant and better able to hold up against heat and UV rays.

## DIRECTIONS

Fill the reservoir with water and add 5–10 drops of essential oil. Select diffusion and light modes and enjoy.

## CAUTIONS

For safety and care information, refer to the Haven Ceramic Diffuser Operation Manual.

## TECHNICAL INFORMATION

Capacity: 100 ml

Weight: 14 oz.

Dimensions: 3.6 x 5.6 inches (92 x 143 mm)

Room Coverage: 375 sq. ft.
