

## PRODUCT SUMMARY

When your furry best friend has a scrape or scratch or has been out on a long outdoor adventure, reach for Infect Away to help clean wounds and soothe irritation. This powerful blend supports your pets with the beneficial properties of Myrrh and Dorado Azul essential oils.

## KEY INGREDIENTS

Myrrh, Dorado Azul, Patchouli, and Oregano essential oils

## EXPERIENCE

When your animal has the occasional minor scrape or abrasion, Infect Away helps guard against harmful contaminants.

## PRODUCT BACKGROUND

Despite our best efforts, somehow our furry friends are always getting into mischief. When their latest outdoor adventure gets a little too rambunctious, Infect Away is there to help them recover. While Infect Away can be used on its own, this essential oil blend was initially developed as the second step in a three-part wellness system for your animal. First, apply PuriClean to their scrape to cleanse the skin. Second, apply Infect Away to help support your pet's natural defense system. Finally, use Mendwell to support your pet's natural healing process.

# INFECTAWAY™

Topical

## BENEFITS & FEATURES

- Supports healthy recovery from minor scrapes and scratches
- Helps guard against harmful contaminants
- Helps support your pet's natural defense system
- Helps support coat and irritated skin with its powerful essential oil blend
- Formulated without synthetic perfumes, dyes, artificial colors, or fragrances

## SUGGESTED USE

- Apply 1-2 drops topically.
- Use an AromaGlide™ Roller Fitment to conveniently apply a generous amount.
- Put 8-10 drops in a 1-ounce spray bottle with distilled water for a quick skin-cleansing spritz.
- Carefully apply according to the size and species of animal.

# INFECTAWAY™

## DIRECTIONS

Carefully apply according to the size and species of the animal. Additional dilution is recommended for smaller species.

## CAUTIONS

Take extra care when using any essential oils, especially those with citric ingredients, around cats. Specifically formulated for veterinary use. Keep out of reach of children. Store in a cool, dark place.

Caprylic/capric glycerides, *Commiphora myrrha*<sup>†</sup> (Myrrh) oil, *Pogostemon cablin*<sup>†</sup> (Patchouli) oil, *Hyptis suaveolens*<sup>†</sup> (Dorado Azul) seed oil, *Bursera graveolens*<sup>†</sup> (Palo Santo) wood oil, *Plectranthus amboinicus*<sup>†</sup> (Ecuador Oregano) oil, *Ocotea quixos*<sup>†</sup> (Ocotea) leaf oil

†100% pure, therapeutic-grade essential oil

## FREQUENTLY ASKED QUESTIONS

### Q. How long can Infect Away be diffused?

A. Infect Away can be diffused up to 1 hour 3 times daily.

### Q. How much does Infect Away need to be diluted before application?

A. This product is prediluted specifically for animals. However, additional dilution may be required depending on the size and sensitivity of the animal. We do not have specific dilution ratios available, as this product was

formulated for all animals, and each individual animal will have different levels of sensitivity. Start by diluting heavily and use in moderation. We also suggest testing the blend on a small area before wide-spread application. Every animal is different, so carefully observe how each animal responds to the oils.
